Evening Brief

Date: Thursday September 6th, 2018

Weather Summary

Drier air works into the Great Basin from west to east Friday and Saturday with only a few isolated thunderstorms left by Friday afternoon in the Uinta Mountains and eastern Utah. Thunderstorms may redevelop briefly Saturday over eastern Idaho/Wyoming/eastern Utah ahead of a stronger area of low pressure, however the winds will be more significant.

SW to W increase somewhat today/Friday but will increase further Saturday and be more widespread across southern ID/WY, northern and western Nevada with gusts 30-35 mph and RH dropping to 8-15%. Due to current fire activity, High Risk has been issued for gusty winds/low RH Saturday (see map).

Dry air will remain in place into next week with stronger cold fronts moving through the Great Basin bringing much cooler temperatures and stronger winds.

Preparedness Levels & Great Basin Fire Activity (from WFDSS)

Great Basin	4	Light Initial Attack Activity
National	4	GB New Fires and Acres: 16 fires 203 acres; 3,693 acres large fire growth

Great Basin Fuel Status [interactive link](#) (Use Edge, Chrome or Firefox browsers)

Fuels and Fire Behavior advisory has been issued for [Northern Great Basin](#)

Fuels/Fire Potential

Fuels have been steadily drying the past week with ERCs back in the 80th - 90th percentile in many areas of Idaho, northern Nevada and northern Utah. Heavier 1000-hr fuels are still well below normal in many of these areas and near record lows for the time of year in some locations. ERC's are below the 50th percentile across most of the southern third of Nevada, and Utah, into the AZ Strip.

Sagebrush Live Fuel Moisture levels across the northern half of the Great Basin are near or just below early September normals, and grasses are cured in all areas.

Fuels will likely gradually modify next week due to cooler temperatures, however stronger winds are also expected.

Resources

Aviation within the Great Basin

- 1 VLAT's, 7 LATs, 2 CL-415's
- 21 SEATs, 2 Fire Bosses
- 11 Type 1 Helicopters / 10 Committed
- 14 Type 2 Helicopters / 13 Committed
- 20 Type 3 Helicopters

Crews Committed within the Great Basin

- 11 IHCs Committed / 0 Available
- 16 T-2 IAs Committed / 0 Available
